

Crondall Parish Council

Roads Report – November 2023 v1

Looking at the roads within the Crondall Parish Council boundary, it was decided to only highlight the issues that were a danger to Road going vehicles as to highlight every issue would create such a huge report it would never be addressed

With winter coming the repairs need to be carried out as soon as possible, before the freeze starts and breaks the roads up even more. This report also includes issues with Road Marking and Signage at the Pinchpoint coming in to the village as there have been reports of vehicle damage due to hitting the high kerbs on entry to the pinchpoint and the need to repaint the road markings at the junction of Church Street and Croft Lane as this is a busy Junction at school start and school end and there have been a number of near misses.

The main issues are as follows;
