The following email from Alex Brewer MP was received on 16th October. The main survey (link below), together with the accompanying information, has been circulated to parishioners.

Councillors are requested to consider whether to:

a) Respond to the specific questions addressed to parish councils; and

b) Agree on any response to be submitted and determine who should submit it.

Whether concerns relate to speeding, dangerous junctions, pedestrian safety, school routes, access to public transport, heavy vehicle movements, or the wider impact of traffic on village life, I would be very keen to hear your views.

I would also be grateful if you could share my road safety constituent survey with residents in your area. The survey is open to all constituents, and every response will help build a better understanding of the issues affecting communities across North East Hampshire and strengthen the case for improvements where they are needed.

Survey link: Road Safety Survey - Alex Brewer MP

I would be grateful if you could also respond to the questions below by the 5th November on behalf of your parish council or parish meeting:

1. What are the main road safety concerns in your parish?
Please include specific roads, junctions, or locations where possible.

2. How significant is the problem?
For example, speeding, collision history, near misses, pedestrian safety, school traffic, HGV movements, dangerous parking, poor visibility, or inadequate crossing facilities.

3. Have these concerns been reported to Hampshire County Council?
If so, when were they first raised?

4. What response or action has Hampshire County Council provided?
Please include any surveys, assessments, decisions, or commitments made.

5. Are there any outstanding requests or unresolved issues?
If so, what outcome is the parish council seeking?

6. Has the parish council collected any evidence to support its concerns?
For example, speed indicator device data, traffic surveys, photographs, resident surveys, or information about collisions and near misses.

7. What has been your experience of engagement with Hampshire County Council on these issues?
Has the Council been responsive, and do you feel your concerns have been adequately considered?

8. What has been your experience of engagement with Hampshire Constabulary?
Have you raised concerns with the police, and if so, what response or support have you received?

9. Are there particular highways or enforcement measures you would like to see considered?
For example, speed limit changes, traffic calming measures, improved signage, pedestrian crossings, parking restrictions, speed enforcement, or community speed watch initiatives.

10. Is there any additional information you think would be helpful for me to know before the roundtable?

Thank you for taking the time to respond. The information gathered will help inform my discussions with Hampshire County Council, Hampshire Police and local communities as I continue to champion safer roads and support efforts to make North East Hampshire's towns and villages even better places to live.

Kind regards,

Alex

Alex Brewer MP – North East Hampshire
